

Release Notes

TO: TransAM Users

DATE: October 30, 2023

TOPIC: TransAM Version 2.35.0

The following memorandum describes the new features and fixes that have been released to the TransAM platform. This release consists of new features and bug fixes.

Bug Fixes:

- Corrected the moving of an asset when there is no corresponding project in the year the asset is being moved to with the correct ALI and fuel type.
- Allow Users to see all available Budgets

New Features:

- Oversight Review - BPT
 - Updated the Document Request labels for the section and one column
 - Modified the download URL and related values to show actual file name being downloaded vs a system generated name
