Release Notes

TO: CPT Users

DATE: February 6, 2020

TOPIC: TransAM Version 2.8.1

The following memorandum describes the fix that has been released to the CPT (TransAM) platform. This release consists of a critical bug fix from the 2.8.1 release.

Bug Fix:

- The 'Archive' action on the Status interface was throwing an error and not archiving projects. This has been fixed to allow for accurate project archiving following the completion of the annual capital planning process.
