Release Notes

TO: TransAM Users

DATE: April 3, 2021

TOPIC: TransAM Version 2.13.20

The following memorandum describes the new features and fixes that have been released to the TransAM platform. This release consists of new features, and fixes.

General System Improvements:

- Replaced the Budgets table action column with an ellipse column

- Added remaining grant value amount to the Grant Profile page & Grants Table

- Created a graphical lifecycle events report

- Ensured that the "disposition type" selections for "Record Final Disposition" page matched the bulk templates options

- Updated the UI of the Projects table

- Added User Training Guide Videos within the system

Bug Fixes:

- The VIN Call Not Working in the Query Filter API Call. This was corrected and is now working as expected.

- New planning partners were not rendering on the organization table. They now are included in the table when added.

- Updating the Grant Year from the Grant Profile did not update the Grant Year in Table. This was corrected & is now working as expected.

- A 500 error was occurring when attempting to update the rebuild/rehabilitation status of an asset, when attempting to access recently created projects, or when viewing the capital plans status page. These have now been corrected and the pages can be viewed as expected.
