DATE: May 20, 2022

TOPIC: TransAM Version 2.21.0

The following memorandum describes the new features and fixes that have been released to the TransAM platform. This release consists of new features and bug fixes.

General System Improvements:

- Clarified the wording on the System Rollover page for PennDOT.

- Updated the User Guide Manuals.

- Added User Guide for DRPT Human Service Providers.

Bug Fixes:

- Updated scenarios so the FY drop-down will default to planning year for PennDOT.

- Corrected the missing Reviewer Organization buttons when manually creating a scenario.

- Ensured that the Capital Equipment Bulk Update drop-down selections for 'Quantity Unit' match the "Add Asset" drop-down selections for PennDOT.

- Removed a 500 error that was occurring when Reports were printed to PDF.

- Resolved the error received on the Replacement Status of an Asset.

- Corrected when updating the 'Class'; it will also update the Asset Summary Profile section.

- Resolved the delay in the Capital Equipment grid when adding the "In Service Date" column and performing a sort on it.
