Release Notes

TO: TransAM Users

DATE: July 21, 2025

TOPIC: TransAM Version 2.57.0

The following memorandum describes the new features and fixes that have been released to the TransAM platform. This release consists of:

Bug Fixes:

- Updated the 'Add Asset' form to accommodate organizations that do not have a Facility to select as a Location. Added a new 'Address' field for the user to enter in an address. If there are Facilities for the viewable organizations, the drop-down was adjusted to display up to 50 facilities and allow search.

- Amended the Scenario's 'Primary' determination factors to look at both first and end FY years. – BPT

- Corrected the "Cost:" label after the Scenario 'Cost' field was updated - BPT

- Removed links to 5 reports per client request - BPT

New Feature:

- Added Asset's replacement "Status" information to the Project Details portion of the Scenario page – BPT

Oversight Review:

- Modified the Document Request page: addressed sort order on 'Review Area' column, removed 'Is Applicable' column and added in 'Filename Prefix' column.

- Adjusted the sorting for the Review Tables to have an initial default sort order as A-Z on first columns for each Review table.
